

Humanities Curriculum Overview

Humanities at Goldsmith Primary Academy is taught through our ASPIRE curriculum. Where possible, we deliver these subjects using a cross curricular approach and have a focus theme for each unit.

Each year group has clear end of year expectations, which are mapped out throughout the school year, to ensure thorough coverage and a progression of skills as children move through their school journey.

Religious Education is delivered across the school year following set unit themes, to ensure children are given a broad and balanced religious education.

British Values are embedded through the ASPIRE curriculum and assemblies, including the introduction of termly British values theme days starting during the Spring term.
